- Marin
- San Francisco
- Sonoma
- 365 days a year

ExtraFood Is Making A Difference For Our Community

FOOD RESCUED:

8.7+ million pounds of surplus fresh food rescued and redistributed

ENVIRONMENTAL EFFECT:

700,000 pounds of methane prevented from warming the planet

IMPACT ON FOOD INSECURITY:

25,000 people served every week

COMMUNITY PARTNERSHIPS:

■ **635** food donors ■ **340** recipient partners ■ **500** volunteers

Meaningful Impact In 2023

Pantry And Other Food Distribution Sites

NEW COMMUNITIES:

San Francisco: Assumed operations of Food Runners

Sonoma: Established partnership with Conservation Corps of North Bay

NEW PROGRAMS:

SOUPer Food Kitchen: Partnered with Chef Heidi Kraehling and Insalata's Restaurant to create nutritious soups and stews from surplus ingredients

Bonus Bucks: In partnership with the CDFA, we created vouchers for low income seniors to increase access to fruits and vegetables at Marin farmers markets

EXPANDED PROGRAMS:

Gleaning: Increased harvests and pick ups from backyards and farms

Coalition Building: Co-chair of the Marin County Disaster Feeding Workgroup and the California Food Recovery Coalition

Unhoused

4,900

Children

7,800

Seniors

COMMUNITY FOOD DISTRIBUTION SITES:

232

Food Pantries

40

After School Programs

85

Senior Housing

WHO WE HELP AND HOW

FOOD DONORS:

Our service is free, we make it easy and it makes a difference in our community

- Save on disposal fees
- Receive an enhanced tax deduction
- Comply with increasingly strict recycling laws like SB1383
- Improve company morale

NONPROFIT PARTNERS:

We provide food that meets their needs

- Save money on food so they can focus their budget on other necessities
- Provide more nutritious meals and healthy fresh food to more people

VOLUNTEERS:

A simple way to make a difference in our community

- Flexibility - sign up for trips that work with their schedules
- Build relationships with other volunteers, food donors, and recipients
- Great opportunity for retirees and youth groups to be involved in our community

PEOPLE FACING FOOD INSECURITY:

One less thing for people who are struggling to worry about

- By increasing equitable access to healthy, fresh food, we enable hungry children to learn, struggling adults to find jobs, and vulnerable seniors to age in place with dignity

THE PLANET:

Food waste is a massive global problem

- 35% of food is wasted. Keeping food waste out of landfills will slow the effects of climate change

Without food recovery, excess food is just feeding climate change
